

HD Single Point PowerPost M10

The ideal solution to extend power-lines or to split a power line to extend them to different locations. Can be mounted in any orientation. The stainless steel hardware resists corrosion.

Technical Information

Maximum current	:	250A bij 12V
Maximum Voltage	:	48V
Bolt	:	M10
Material Base	:	Glass filled nylon
Colour Base	:	Red or Black
Material Connection Post	:	Stainless steel
Distance Mounting holes	:	63,5mm
Thanks to the strong and stable base. Can withstand heavy torque and pulling force		
Article nr.:	9587386M	red M10
Article nr.:	9587385M	black M10

Optional: A variety of isolating caps for example Straight , 90 degrees and T-piece.
